

Animal Magnetism

Why should pets live like animals? Disappointed by the poor quality of pet furniture available on the general market, Ree Yong set about creating something better, ending up with 'Copenhagen', a range of aesthetically pleasing, functional and affordable designs that complement modern homes. Dog lounges, feeding tables and pet carriers, as well as a feeding tray, scratching-post and an impressive 'condo' for cats, are all available from the collection. Five per cent of all profits from sales of the Ree Yong collection will be donated to Hong Kong Dog Rescue. For more information visit www.reeyong.com.
